He pleaded guilty. His Honor said the prisoner ought to have known better than to engage in such business-he might have been sure he would get caught. The highest penalty was a fine of \$500, the lowest \$100. He would sentence him to pay a fine of \$150. There was a large crowd in attendance

Several lawyers occupied seats at one of the tables. The interpreter, Mr. Wilcox, was busy perusing the morning's ADVERTISER, the Chinese interpreter, Li Cheung, looked quite smart, having visited the barber since Saturday morning, and the Clerk, Mr. Wond, was ready for business with pen in hand. The Attorney General, His Excellency A. Rosa, and his deputy, Mr. A. P. Peterson, were also present. The andience had among it a large number of persons who rarely visit the Court, and were no doubt attracted by the expectation of seeing the business men, dudes and wahines who had been surprised early Sunday morning at the Kapiolani Bath House, having a real good time. The Secretary of the Y. M. C. A. stretched his long legs out from an arm chair, quietly taking in the surroundings. The whole appearance of the Court wore a different aspect from what it generally does.

The first called was Charles Molteno, charged with keeping a disorderly house. After the charge was entered His Honor asked for the defendant. "He vas not here," said Captain Fehlbehr. The Marshal winked, and told Fehlbehr to go to the head of the stairs and call the defendant three times. The genial Captain obeyed, and with his sonorous voice, which caused the whole building to vibrate, said three times: "Charles Molteno, come into Court and defend your c s: or forfeit your bail." The defendant did not appear and the bondsmen were called in the same manner, but still no appearance. His Honor then declared the bond forfeited, and the business of

At 9:45 o'clock the Hon. Paul Neumann entered with Molteno. He asked that the order of forfeiture be rescinded. It was usual for the Court to take dock cases first. He did not believe in "snap" judgment. The Court should set the default aside and let the defendant plead. His Honor-What has the Attorney

General to say to it? Marshal Kaulukou-What ever had been the practice of the former Deputy Marshal, he did not propose to follow it. The Court sat at a certain hour, and he was at perfect liberty to call any case he chose to.

A Japanese Girl Sent to Prison.

A young Japanese girl named Dio was sentenced to imprisonment at hard labor for one month, yesterday, for larceny of a quantity of goods, the property of Hon. A. S. Cleghorn. The girl was in the latter's employ at Waikiki up to last week, when she was discharged. After she had left a number of things were rant, proceeded to a house near Smith's The members of the choir of the second | bridge, last Thursday, where the girl arrested, and at the preliminary examination pleaded not guilty. Yesterday she withdrew that plea, and pleaded guilty. The Hon. A. S. Cleghorn, who was in Court, asked that leniency be shown towards the girl. In only giving a month's imprisonment His Honor let her off very lightly, as she was liable to

THE SUGAR MARKET.

Our latest advices from the Coast were not very satisfactory, and indicated a reduction in values for raws, which, of course, is not good news for Hawaiians. The special correspondent of the ADVER-TISER at San Francisco reports, on the day of the Zealandia's sailing, a decline in both Cuban and Manila raws. As a large quantity of sugar had arrived in San Francisco just at the time of the drop, this is not encouraging for our planters. Refined sugar in New York was on about the same low basis as our former quotations. There had been an advance in the London beet market, but there was no prespect of any strengthening in New York futures.

Important changes have taken place in the share list of the American Refinery, which may have considerable bearing on the future of that concern and the plantation interests supporting it in this country. Several of the original stand-byes of that company have withdrawn. Mr. Tillman, of Tillman & Bendel, has no longer any interest in the American Refinery. Mr. Jones, the well-known San Francisco merchant, has withdrawn. Mr. C. Adolph Low, a member of the firm of E. L. Steele & Co., has sold out almost his entire line of stock, and now holds only a nominal interest in it. Last, but not least, Major Hermann Bendel, who was recently in Honolulu, has sold out his whole interest of \$100,000. He made no secret of this, speaking openly of the sale. It is said that the purchasers are Hawaiian planters. Offers of a compromise from the American Refinery to the California have, we understand, been persistently rejected. Each concern stands upon its own merits in the commercial world.

This market has improved considerably, indicating a greater willingness on the part of refiners to replenish their supplies. Buyers have bought pretty freely on the spot, and secured considerable stock to arrive and for shipment, absorbing all the cheap parcels that were available, and at the close bidding quite freely on the basis of prices previously paid.

Later telegraphic news indicates a much weaker feeling, with a decline.

"Bradstreet's," March 5th, has the following telegram: Sugar at New Orleans is quiet and easy at decline. The heavy arrivals of Hawaiian sugar at Western points have checked orders for Louisiana sugars. Stocks at New Orleans are light, and the supply on

plantations is practically exhausted.

The Fine Exhibit Made at the Fair by the Fredericksburg Brewing Co.

A CALIFORNIA PRODUCTION.

One of the most novel and unique exhibits of the Mechanics' Fair was that of the Fredericksburg Lager Brewing Co. It was in the form of a bower, the roof being tormed of hop vines, while around the sides were arranged the various packages of the famous Frederi cksburgbeer. This company was the pioneer in the manufacture of lager on the Coast. After overcoming many obstacles they have succeeded in producing an export

Lager Not Surpassed

By any other made in the United States. A proof of this is seen in the fact that their goods are sold as far East as Chicago, d spite Eastern competition. How can they do this after paying freight over 3,000 miles of railroad, it may be asked. In the first place hops are better and cheaper here than in the East; again, California barley is the best grown in the United States; but the chief reason is the superior quality of the brew. As they use only the finest artesian water and the very best material, and have all the best and latest machinery, they are able to produce an article that

DEFIES COMPETITION.

Their Export Lager is so perfect that it will keep any number of years in any climate. and is sold largely in Mexico, Australia, the Islands, South America, and in short throughout the Western Hemisphere. In three years their output has quadrupled; last year it amounted to 33,000 barrels, and this year will exceed that amount. Since writing the above we learn that the Fredericksburg Brewing Co. was awarded the first prize, a silver medal, "for the best Export Lager," also the first prize, another silver medal, for the "best Keg Lager Beer." - Journal of Commerce, San Francisco.

Having been appointed SOLE AGENTS for the Hawaiian Islands for the above celebrated Brewing Company, we are now prepared to fill all orders for the trade and family consumption at bedreck figures.
